ABOUT THE AOS

The Australian Osseointegration Society brings together people at the forefront of implant dentistry in Australasia. Our members are general dentists, prosthodontists, surgeons, dental technicians, hygienists, therapist, hygienists, dental nurses, industry representatives and auxiliary dental personnel who enjoy meeting to learn and share information to improve the standard of implant dentistry.

Our aims are as follows:

- To encourage and promote clinical applications of osseointegration
- To encourage high professional and clinical standards
- To organise and conduct educational programs
- To promote research in implant dentistry

As well as the Federal body, the AOS has state branches in NSW, QLD, SA, VIC, WA and New Zealand.

SELECTION: SCIENCE OR MARKETING

Dear Colleagues

On behalf of the Australasian Osseointegration Society, it is my pleasure to announce the AOS 8th Biennial Conference which will take place at the Adelaide Convention Centre in South Australia 9–12 November 2011.

This distinctive event is an international meeting of world class standard with highly respected speakers who mix clinical knowledge and ground-breaking new techniques with solid scientific background. The conference theme is 'Selection: Science or Marketing', with the aim of fostering safe clinical practice by promoting understanding of the benefits and limitations of various clinical techniques.

Marketing of implants relies on a combination of many concepts with a common goal: to stimulate our senses and provoke a response. Traditionally, science follows a rigid linear system – seeking understanding of ever smaller units in order to explain how the complex system functions. This philosophically rigid approach has provided significant discoveries and advances – but it is at the same time a limiting and inflexible approach. Is there a potential advantage to an alternate paradigm?

We have invited world-renowned speakers who will contribute to an outstanding three days, providing an authoritative and reliable scientific and clinical basis for the treatment of patients, as well as addressing exciting new innovations and research. The event will provide something for everyone, with multiple parallel sessions, oral presentations, master class, training workshops, poster competitions, and a large exhibition with all the global leading companies offering the latest products and technological innovations.

Festivals. Wine and food. Arts and culture. Shopping and sports. This is Adelaide - South Australia's capital has it all. With spacious boulevards and vibrant inner-city districts, sophisticated architecture and lush gardens, Adelaide is the perfect venue for all sorts of activities. Beautiful beaches and famous wine regions are only a corks throw away. Take a few extra days in conjunction with the conference and experience this wonderful location.

On behalf of the organising committee, we invite you to join us in Adelaide in 2011 for a program that will challenge your thinking and ignite imaginations.

Dr Davor Hribar
AOS Federal President

CONFIRMED SPEAKERS

Dr Fernando Rojas-Vizcaya
Castellón, Spain
and University
of North Carolina
USA

Dr Clark Stanford
College of Dentistry,
University of Iowa
USA

AOS 2011 SCIENTIFIC PROGRAM

This distinctive event is an international meeting of world class standard, featuring internationally known private practice and academic-based experts in implant dentistry, who will provide you with their comprehensive knowledge of the most current research, materials, tools and techniques in implant dentistry.

The conference is themed '**Selection: Science or Marketing**', and will be designed to address practical and highly relevant issues that concern clinicians. Learn from a diverse range of internationally renowned experts through a comprehensive series of workshops, keynote presentations and panel debates.

Topics will include:

- Implant dentistry, surgical and prosthetic aspects
- Innovations and advances
- Tissue augmentation and engineering
- Technical and biological complications
- Risk management
- Research

SCIENTIFIC PROGRAM HIGHLIGHTS

+ MASTER SESSION WEDNESDAY 9 NOV 2011

We ask the experts the tough questions

+ COMPLICATIONS SESSION SATURDAY 12 NOV 2011

What can go wrong, & how can we solve it?

+ RISK MANAGEMENT SESSION SATURDAY 12 NOV 2011

Insurance company experts offer their advice.

+ PLUS A FULL DAY AND A HALF OF TRAINING SESSIONS

FRIDAY 11 & SATURDAY 12 NOV 2011

For: Office Managers, Auxiliary Staff & Laboratory Technicians.

SOCIAL PROGRAM HIGHLIGHTS

WELCOME RECEPTION

PROUDLY PRESENTED BY HENRY SCHEIN HALAS

Wednesday 9 Nov 2011 Adelaide welcomes you to AOS 2011 at the official welcome reception of the conference. Renew old acquaintances and form new friendships over informal drinks and canapés.

CONFERENCE DINNER

PROUDLY PRESENTED BY ASTRA TECH

Friday 11 Nov 2011 the conference dinner will provide a wonderful opportunity to enjoy a relaxing evening with colleagues and industry associations.

Register your interest to receive the AOS11 conference registration brochure at www.aosconference.com.au.
