

WHY YOU SHOULD ATTEND

The Conference is a mechanism for dental clinicians including specialist prosthodontists, periodontists and oral maxillofacial surgeons and academic researchers to come together to promote dental implant treatment modalities, evaluate emerging research, technology and techniques, and share new ideas in order to improve current procedural techniques for all.

We have gathered a group of international speakers who are leaders in their fields including

Professor Emeritus Tomas Albrektsson
Institute of Clinical Sciences, Sweden

- Oral Implant Development: Discovery of osseointegration; Promise and Threats during 50 years of Clinical usage
- Marginbal Bone Resorption around Oral Implants
- Oral Implant surfaces
